

Learning with Trees™

Learning with Trees is a free program for Minnesota elementary and middle schools that includes environmental education and a school-wide planting day on your campus.

Who We Serve

- Elementary and middle schools across the greater Twin Cities Metro area.

The School Provides

- A 'Green Team' of parents, teachers, and students.
- Ongoing watering plan.

What We Provide

- Program coordination, planting designs, and all required planting materials including trees and shrubs.
- Our Town Trees Exhibit, an interactive, traveling exhibit that teaches students about the benefits of community trees.
- School-wide planting day and installation of an outdoor classroom (if desired).

"As a principal, I have partnered with Tree Trust at two separate schools in two different communities and would do it again in an instant; they are a top-notch group to work with, work to understand our needs, and truly want to make a positive impact on our school community and the future of our environment."
– Will Rimmert, Principal, Eagle View Elementary School
